-1901

1. The first step is to identify the problem or question that needs to be answered. This involves understanding the context and the specific information required.

1. The first part of the paper is devoted to a review of the literature on the topic. It starts with a brief overview of the general theory of the firm, followed by a more detailed discussion of the specific issues related to the topic. The literature is organized into three main sections: (i) the role of the firm in the economy, (ii) the structure of the firm, and (iii) the behavior of the firm.
